TITLE OF THE DIGEST

A. W. Author¹, B. C. Scientist²

¹ ABC Labs. Xyz Str. 123 City name, Country name

² XYZ Corporate Res. Wxyz Lane 901 City name, Country name

Procedure and Submission

The digest is NOT an abstract. It is a two-pages condensation or summary which outlines the work to be reported and includes as many of the results as possible. The inclusion of figures, tables, and especially numerical results is strongly recommended. The Program Committee will make its selection by ranking digest on their technical content and intelligibility.

Digests should be submitted in either Microsoft Word (doc) or pdf format using conference website www.apsaem2018.com

Formatting Instructions

Each digest is limited to two pages in length. All material including title, authors and affiliation(s), text, equations, figures, tables, and references must be contained within one rectangular area of 172mm · 246.2 mm (two A4 pages with top and bottom margins set to 25.4 mm and left and right set to 19 mm). Digests must be in English, and only standard symbols and abbreviations should be used in the text and illustrations. All lettering should be no smaller than 11 points in Times New Roman font. Single line spacing should be used.

The title should be centered at the top of the page and typed in all capital letters of 14 points in bold Times New Roman font. One line below enter the name(s) of the author(s), and on the next line provide the business affiliation(s) and address(es). Skip one line and start the text. Underline section headings. Place them flush on the left-hand margin and on a separate line. Only the initial letter of each major word in headings should be capitalized. Any figures or photographs must be clearly shown. Equations should be sequentially numbered in parentheses which are placed flush with the right-hand side margin.

$$\iint p(x, y) dx dy \quad (1)$$

Numbered citations should be enclosed in square brackets after the cited text and appear at the end of the digest [1].
